

DANCO[®]

SPECIALTY ADHESIVE TAPES

Double Sided Tapes

May 2026

DAN6690 Paper Double-sided Tape

A hand tearable tissue carrier with a light and age resistant acrylic adhesive on both sides. High quick stick and shear adhesion. Ideal for splicing and laminating, permanent fixing of nameplates, badges and emblems.

Carrier Colour: Translucent Roll Length: 50m

DAN6600 PVC Double-sided Tape

A PVC carrier coated on both sides with a light, age and moisture resistant acrylic adhesive. An excellent general purpose double-sided tape suitable for permanent bonding, laminating and splicing of most materials.

Carrier Colour: White Roll Length: 25m, 50m

DAN6652 Filmic Double-sided Tape

A filmic carrier coated on both sides with an aggressive light, age and moisture resistant acrylic adhesive. A high performance double-sided tape, suitable for most permanent bonding, splicing and laminating applications, on a wide variety of surfaces.

Carrier Colour: Translucent Roll Length: 50m

DAN6620 PE Foam Double-sided Tape

A polyethylene foam carrier coated on both sides with an aggressive acrylic adhesive. Excellent for permanent mounting of items onto both rough and smooth surfaces. Ideal for permanent fastening of wall dispensers, posters, banners, plastic POS dispensers, signage and other fixtures.

Carrier Colour: White Roll Length: 25m

Standard widths for most tape products are 18mm, 24mm, 36mm, 48mm, 72mm, 96mm and 144mm.

Custom slitting to your required width is available subject to consultation and approval with your local Danco[®] Sales Consultant.

DANCO self-adhesive tapes are successfully used in many fields of application to solve a variety of problems. Our catalogues give numerous examples as suggestions for your own problems. Each DANCO tape has been developed for a specific application. However, experience shows that, even for the same application, requirements can differ from case to case. Therefore, we suggest that you conduct tests to ensure that the DANCO tape you have in mind is suitable for your particular application. Our technical department and sales consultants will be pleased to assist you. All information and advice is given in good faith based on practical experience, but without any guarantee.
